EXPERIENCE

Mphasis Ltd., Location — Bangalore

APR 2021 - JAN 2022

I am working as a UI Developer at Mphasis. At this moment, I am delivering robust application to JPMC by working with using technologies like React, Vanilla JS, HTML, CSS & Java Spring Boot.

Neem Consulting Ltd., Location — Bangalore/Remote

(Senior Software Developer) JAN 2022 - Present

(Software Developer) MAY 2020 - APR 2021

My role in this company is to handle the new technology paradigm which is JAMSTACK, I am very fortunate to be a first member of this JAMSTACK Developer Team in Neem. I am delivering eye catching, robust, accessible & most importantly performance agnostic solutions to the client such as Unilever by working with offshore team of Unilever directly. I am working on technologies like React.js, Vue.js, Next js, Nuxt.js, Gatsby js, 11ty, Vanilla js, Typescript, Shopify, Sanity CMS, Salesforce Commerce, Netlify, CSS, SCSS, Webpack, Express.js(Node js), HTML5, etc. at this moment. Also, I was really fortunate to be a part of the best JAMSTACK project of 2020-2021 called "Nexxus", which was announced as the best JAMSTACK site on Netlify last year.

Wink & Nod, Location — Pune

MAY 2019 - May 2020

My role in this promising startup company is to handle all the technical aspects related to our e-commerce product web application. I have to implement & integrate the possible features suggested by the marketing & sales team individually for the growth in online selling of our products from our online ecommerce store. I am working on technologies like Shopify, Liquid, React.js, Express.js, HTML5, CSS3, Javascript, jQuery, Bootstrap, Jamstack, Gatsby.js, Wordpress.

Jack Solutions, Location — *Surat*

AUG 2018 - MAY 2019

My role in this company is to complete the web application projects(Both frontend & backend) individually & also managing the projects & clients by myself whenever there is any necessary, I have worked on technologies like Node.js, Express.js, React.js, Next.js, HTML5, CSS3 & Javascript. I have also learned GraphQL as my individual interest & have given a seminar on this topic. So, overall I'm having a great experience here.

Clegonic, Location — *Surat*

JAN 2018 - JUL 2018

My role in this startup company was to build some eye-catching websites individually as the motto of this company is ("Design is the main core feature to attract the customers & to grow the business of our clients."). So, i have learned the art of web design skills here, also have learned some graphic design here. I have basically worked on technologies like HTML5, CSS3, Bootstrap4, Angular.js, Javascript(ES6), Jquery, CodeIgniter, Wordpress, SEO, SMM, Rich Snippets & Some Graphic Design. So, I have gained some good knowledge of UI Design & Front End Development.

Searce, Location — *Pune*

OCT 2016 - MAY 2017

This was my first job & my role was to make changes as per the ticket or query has been generated by the support team in the already developed software product called Invoize Suit. I have also worked on SQL server to generate the daily reports of the clients here. I have worked on technologies like PHP, Python, HTML5, SQL and Google Apps For Work here. It's been a great experience over here.
