EXPERIENCE

Associate Software Engineer　　　　　　　　　　　　　　　　　　September 2022 - Present
Tekion　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　*Bangalore, India*

- Was in Cashiering Service Team: This is a service used for checkout flow. Currently, there are multiple gateways integrated that support Braintree, Paypal, ACH, card, terminal, and some gift card flow. Currently, this service supports Payments, refunds and also manages all settings related to gateways. Also we have developed a payment facilitator that has capabilities of account management, payouts, fee management, settings related to refund, and reporting related to it.
- Demonstrated end-to-end ownership of components, taking responsibility for all aspects of 3 subsystems I worked on, including design, code, testing, integration, deployment, and enhancements.
- **Tech Stack:** Spring Boot, Java 8/11, Kafka, Elastic Search, Sumo Logic, Redis, Postman, Documentation, LaTeX, MongoDB
- Identified and optimised average latency of 3 existing apis, by more than 30
- optimised storage by 150GB, reducing redundancy, by changing api contracts, api aggregation and existing system's design.
- refactored more than 500 lines of code.
- Tested new workflow in CI team, which was responsible to implement sonar lint before commit, was responsible to stress test by writing incorrect code in order to reduce edge cases.
- Mentored and guided 2 junior interns
- Collaborated closely with cross-functional teams including management, product, QA, and UI/UX teams, effectively communicating and coordinating to ensure successful project delivery.
- Thrived in a fast-paced startup environment, consistently delivering high-quality work on time, and adapting to ad-hoc requirements and priorities.

Technology Analyst　　　　　　　　　　　　　　　　　　　　　　April 2018 - August 2021
ZS Associates　　　　　　　　　　　　　　　　　　　　　　　　　　　*Pune, India*

- Successfully drove revenue growth for a SaaS tool, previously slated for phase-out, from >\$20,000 to <\$70,000 per annum within 6 months.
- Enhanced the functionality and aesthetics of existing SaaS tools by incorporating VanillaJS, HTML, and CSS widgets. Led innovation and management of custom widgets for internal SaaS, leveraging Python automation for faster delivery and lower associate work cost.
- Innovator of the Year in 2021 for groundbreaking achievements in providing a new perspective on using and operating the existing SaaS, resulting in increased value and reduced human cost
- **Tech Stack:** Flask, Python, JavaScript, jQuery, Excel, Power Point, Word, Documentation, SQL, SQLite, html, css
- Skilled in analyzing client requirements, prototyping, demoing, delivery, issue management, and team management.
- Built a highly adaptable and reusable award portal system with the team for a client. This solution was proposed to and adopted by 4 new clients within a year of deployment, significantly boosting team revenue.
- Successfully managed stakeholders for 4 concurrent projects, ensuring timely delivery and customer satisfaction.
- Mentored and coached 4 new analysts, contributing to their professional growth and development.
- Conducted in-depth analysis of various client requirements, optimizing existing business processes using SaaS tools to drive operational efficiency and effectiveness.

Intern   May 2015 - August 2015

Tata Steel   *Jamshedpur, India*

- Developed a Retail Management System with a team of 2, utilizing Java and SQL technologies.

- **Tech Stack:** Java, Sql

- Gained valuable experience in understanding supply chain challenges and addressing them by ensuring transparency of inventory and closely monitoring market demand for both the company and vendors.

ACHIEVEMENTS

Innovator of the Year, ZS Associates
CCDSAP-Foundation, [link](), CodeChef Certified Data Structures and Algorithms Programme
Problem Solving Intermediate, [link](), HackerRank 5-star

EDUCATION

Backend Developement, Scaler
Bachelor of Technology, Computer Science, Kalinga Institute of Industrial Technology

SKILLS

Java, HTML, Css, JavaScript, JQuery, Python, SQL, MongoDB, Kafka, Elastic Search, Data Structures & Algorithms

EXTRA-CURRICULAR ACTIVITIES

- Solving DSA questions online (Leetcode, USACO Guide)

- Touch typing (avg. 70 words pm)

- fitness, mma and swimming

- learning new skill-sets and face challenges like acting classes, travelling, etc.
