Summery

Bringing over 3.5 years of application testing experience to the table, expertise lies in adept bug identification, reporting, and the creation of test plans across multiple platforms. Specialization spans various testing methodologies and agile practices, fostering effective collaboration with cross-functional teams while maintaining seamless communication with developers. Proficient in automation testing, the goal is to contribute valuable expertise to guarantee the success of software projects in a software/game testing role.

PROFESSIONAL EXPERIENCE

QA Tester   **May 2022 – Present**
Ubisoft Entertainment, Pune
- Conducted comprehensive testing on a diverse portfolio Applications, Contributing to the identification and resolution of bugs, glitches, and performance issues.
- Scripted automated test cases Java with TestNG streamlining regression, functional, and integration testing processes.
- Capable of leveraging Postman's efficiently to execute and manage API test suites, ensuring thorough validation and integration testing.
- Proficient in crafting and executing SQL queries specifically tailored for testing purposes.
- Created Comprehensive bug reports, providing details on factors such as ease of replication, severity, and other metrics.
- As a POC, I oversaw a team of Junior QA testers, including assigning tasks, providing guidance, and actively participating in bug resolutions.
- Presented strong organizational, time management, and leadership skills while managing the team.

Junior QA Tester   **Sept 2020 – April 2022**
Ubisoft Entertainment, Pune
- Led functional testing and planning of various games and their components to identify and report bugs on Jira, ensuring the maintenance of adequate game quality.
- Performed Functional, Ad-hoc, Retesting, and Regression testing, Compatibility, Sanity & Smoke Testing.
- Conducted manual testing on applications across multiple platforms, ensuring optimal performance.

SKILLS

- **Core Skills:**
  - Manual Testing Skills: Functional Testing, Regression testing, System Testing, Adhoc Testing, Smoke and Sanity.
  - Automation testing
  - Experience in creating, executing, and analyzing test cases with proficiency in bug tracking, testing tools.
  - Testing Methodologies, Bug Life Cycle, STLC & SDLC
- **Soft Skills:**
  - Critical Thinking, Time Management & Leadership
  - Conflict Management, Able to work independently or collaboratively.
- **Tools:**
  - Bug Tracking & Testing Tools: Java with Selenium, Jira, Bloomberg, Testrail, X-ray, Postman, Dtest
  - Data Management: MS Excel, SQL, Power BI, Confluence, Power point

EDUCATION

Bachelor Of Engineering, Production(S/W)
Dr. D.Y. Patil College of Engineering   **May 2020**

CERTIFICATES

- **Jira User Apprentice Certification -** Certification related to Jira.
- **Selenium WebDriver with Java –** Automation testing using selenium WebDriver.
- **QC Workspace - Build Deployment -** Learnt how to deploy builds automatically by using QC workspace.
