Work History

● Mobile Application Developer

Tata Consultancy Services, Bangalore, Karnataka

Apr 2021 - June 2022

- Worked as a React Native developer by building UI and business logic as per client requirements for an application for patients that has features like community, groups, journals, notes, etc.
- Developed UIs and business logic as part of a 5 member development team.

2019-05 - Current

- Followed Agile methodology dividing stories amongst team members, working in 2-week sprints, updating tasks and subtasks, having sprint retrospectives, story grooming and story pointing sessions.

Jan 2021 - Mar 2021

- Enhanced performance and overall stability for client's internal iOS application that provides organizational news feed to employees by avoiding repeated download of cached images.

Jul 2020 - Dec 2020

- Enhanced existing iOS application by adding localization and feature to switch between languages from within the app.
- Followed Agile methodology by working in 2-week sprints comprising of stories, tasks and subtasks.

Nov 2019 - Jun 2020

- Worked as junior iOS developer performing UI overhaul to existing iOS application dealing with tracking dispensation of medicine to patients and educational articles related to treatment methods.
- Worked alongside a senior iOS developer assisting in developing business logic and fixing bugs.

Personal Projects

- Built a simple Restaurant search app in React Native that fetches and displays data from the Yelp API using Axios and React Navigation.
