I am a highly motivated and experienced Angular developer with over 6 years of experience in developing scalable and efficient web applications. Proficient in using Angular frameworks and libraries, such as Angular 8 and above, RxJS, and GraphQL. Skilled in designing and implementing RESTful APIs and integrating them into Angular applications. Additionally, I have a solid understanding of HTML, CSS, JavaScript, TypeScript, and have experience with technologies like Express JS and NestJS. I have worked on integrating OAUTH 2.0 and OIDC in our application.

PROJECTS

APRIL 2023 – TO DATE
WIDAS CONCEPTS, DEUTSCHE BANK

1. Developing an application for automatic loan processing.
2. Contributing to few services in Nest JS.
3. Played a pivotal role in updating projects to Angular 15. Making them responsive, migrating from Nexus to Gitlab.
4. Used OAUTH 2.0 and OIDC for authorization and authentication.

MAY 2022 – FEB 2023
LTTS, PHILIPS

Worked with Philips own artifactory which contains numerous Angular controls, which are used by other Philips projects worldwide.

NOV 2019 – MARCH 2022
COREVIEW, DOREMING

Doreming is a project for a Japanese client, which has 5 portals Employer, Employee, Bank, Tax office and Admin. Each portal had its name specific functionalities.

EDUCATION

2017
BACHELOR OF ENGINEERING

Pune University

FRONTEND SKILLS

- Angular
- HTML5, SCSS
- Git, GitHub, BitBucket
- TypeScript
- NgRx

BACKEND SKILLS

- Nest JS
- OAUTH 2.0
- NodeJS, Express JS
- OIDC

HOBBIES

- Football
- Riding motorcycle
- Adventure activities
- Reading
