Current Working Project

Adhyayan: NMCOE Online Platform

“NMCE Online Platform” system is a web application developed in programming language to enhance assignment collection and evaluation processes. Also developed for daily student attendance in departments. The system is not only improving the work efficiency, students’ study and development, but also can save human and material resources. The project will create an easy and comfortable sharing platform for students and teachers. Being an online application, it can be logged in from anywhere with internet access.
