SKILLS

ASP.NET Core / MVC	C# OOPS	Bootstrap4/5
React JS	Kendo Ul - Telerik	Win/Web Forms
REST API	Web API	Windows Service
MS SQL & ADO.NET	Docker	WordPress
LINQ/Entity Framework	Ajax & jQuery	
HTML5 / CSS3	Json	

EXPERIENCE

Consultant, Development

Infogain India (P) Ltd *Feb 2023 - Present*

Client: Mitchell International (Insurance Domain)

Project: SMART-ADVISOR

1. Led the development of a workers' compensation insurance application, guiding the design towards an accessible **React JS** front-end to enhance user experience.
2. Implemented robust **REST APIs** for the back end, leveraging **.NET Core C# and MS SQL**.

Role & Responsibilities:

- Oversaw end-to-end processes, including design, coding, testing, and **Swagger** integration.
- Collaborated with cross-functional teams to ensure successful project delivery within specified timelines.
- Applied cutting-edge front-end technologies, such as **React JS,** resulting in a 40% increase in user engagement and a 25% decrease in page load time.
- Refactored code for optimal performance and maintainability, leveraging acquired knowledge.
- Proficiently crafted **SQL** queries to enhance database operations and data retrieval.

Senior .NET Software Developer, Full Stack

L&T Infotech (LTI) *Oct 2021 - Feb 2023*

Client: - Cma Cgm (Shipping Domain)

Project: WTT (Tender Application)

1. Designed a negotiation management tool, showcasing proficiency in data extraction, precise document re-exportation, and vigilant monitoring of tender terms and rate changes across the life cycle.
2. Engineered the web application using **Asp.Net Core, Telerik Kendo Ul, Html5, Bootstrap, and MS SQL** database as the backend.

Role & Responsibility:

- Pioneered the development of efficient, testable code, collaborating closely with project managers to establish critical coding milestones.
- Designed an intuitive Ul using **Telerik Kendo UI, HTML5, CSS, and Bootstrap** .

- Played a pivotal role in database object development, continuously refining specifications to meet evolving technical needs.
- Ensured the delivery of clean, efficient code aligning with precise project specifications.
- Reviewed code, debugged problems, and corrected issues.

Senior Software Developer
Quant *Oct 2019 - Oct 2021*
Project: DATA SERVICE (Finance Domain)
- Developed a WEB API and C# application with MS SQL backend, delivering data support to diverse projects in various technologies.

Project: WEB SITE & PORTAL
- Crafted visually appealing web application using a robust **Asp.Net MVC Core** foundation, distinguished by its creative design and seamless integration of the latest **front-end technologies** and **REST APIs** .

Role & Responsibility:
- Integrated data from back-end services and databases, ensuring seamless functionality.
- Actively mentored and trained new developers, upholding and propagating company coding standards and best practices.
- Leveraged **HTML5, CSS3, Bootstrap, JavaScript,** and **Ajax jQuery** to enhance website project user interfaces, applying front-end expertise.
- Trained new developers and programmers on company standards for design and review.
- Demonstrated proficiency in implementing projects from scratch, emphasizing **OOPS** concepts to deliver efficient and scalable solutions.

Software Developer
PC TECHNOWLEDGE CENTER PVT. LTD *Aug 2018 - Oct 2019*
Client: NSDL e-Governance
Project: TIN-FC INSPECTION MANAGEMENT SYSTEM

1. Developed a comprehensive web application using **C# WebForms and MS SQL** to efficiently manage inspections at TIN Facilitation Centers.

Role & Responsibility:
- Delivered top-notch services at customer locations, demonstrating excellence in managing various database objects and efficiently handling daily tasks.
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.

EDUCATION

CDAC (PGDAC)
CDAC Acts, Pune *Feb 2018*
Grades: 67%

B.E
