Objective

A career that gives me opportunities to work at the leading edge of technology, to learn and to innovate, to teach and to lead others, and to feel the satisfaction of success.

Experience Summary

- 8 + Years of experience Web Based Programming and Business Application Development.
- A self-motivated software Developer with experience in all phases of Software Development Life Cycle (SDLC).
- Strong Object-Oriented Programming and Development knowledge.
- Extensively worked on Agile Methodology
- Extensively worked on Unit/integration testing using Mock
- Ability to handle independently projects in Angular, TypeScript, JavaScript, jQuery, HTML, NodeJS, , Kendo UI, Bootstrap, CSS, MVC, WCF, Web API, C#, SQL-Server.
- Knowledge of GIT, TFS, SVN
- Knowledge of logging platform like N-Log, ELMAH, Kibana
- Experience in Angular, JavaScript, Kendo UI, Typescript, C#, Web-API, Design Pattern Architecture, SQL-Server
- Sound technical knowledge and ability to learn and adapt quickly.
- Good Communication skills, interpersonal skills, self-motivated, and team player.

Skills Summary

Skills Summary	
Domain	Healthcare, Manufacturing, Insurance, Finance
Programming Languages	Node.js, Typescript, Kendo UI, Angular 6, JavaScript, J Query, Web API, C#, WCF, MVC 5, SQL Server 2008/2012/2014
Operating System / ERP Version	Windows 7, window10
Tools / DB / Packages / Framework / ERP Components	MVC 5, C#, SQL Server 2008/2012/2014, VS 2015, LINQ, Entity framework 6.0, Entity framework 7.0, J Query, Web-API, WCF, Java Script
Hardware Platforms	Intel Series

Working Experience

- I have worked as Software Specialist LTI - L&T Information Technology Ltd. Since September-2018 to July 2022

- I have worked as Developer Microsoft Technology **Cognizant Technology Solutions** Since October-2017 to January 2018 SB Road Pune payroll company **I -Source Infosystems Pvt Ltd**.

- I have worked as Developer Microsoft Technology **Prakash Software Services Pvt Limited** Since March-2017 to September-2017 S.G Highway Ahmedabad.

- I have worked as Developer Microsoft Technology **Indusa Infotech Pvt Limited** Since June-2016 to February-2017S.G Highway Ahmedabad.

- I have worked as Developer Microsoft Technology **Indianic Infotech Limited.** Since October-2014 to June-2016, S.G Highway Ahmedabad.

- I have worked as a Programmer Since September-2013 to September-2014.

- **Silicon Valley Infomedia Pvt. Ltd** http://www.siliconinfo.com ,S.G Highway, Ahmedabad Gujarat.

- I have worked as A Jr Programmer Since July-2012 to August-2013

- **Dgtal World LLC** www.dgtalworld.com, Paldi, Ahmedabad Gujarat.

- I have worked as Support Executive (DBA) and MIS Analyst at **Infomedia18Ltd.** Ashram Road, A' bad from August-2010 to February-2012(1year 6month).

Educational Detail

❖ MCA: -

AES Institute of Computer Studies (AESICS), Ahmedabad**,** (Accredited 'B++' Grade by NAAC) **Gujarat University** (Accredited 'B++' Grade by NAAC).

Percentage: 65%   **Passing Year**: July-2010

Projects Undertaken:

Project Name	BQA – Business Quality Assurance Application.	Team Size	4
Client Name	A Gallagher - Arthur J Gallagher group	Company	L&T Infotech.
Start Date	January-2021	End Date	July- 2022
Role & Contribution	• UI Development • Web API Development		
Project Description	The Application will support Business Quality Assurance process. Different types of Checklists will be created by the Audit team. Depending upon the type of Audit need, appropriate checklist will be used against a particular transaction.		
Technology & Tools	Angular 12, TypeScript, JavaScript, HTML, C#, VS-Code, VS 2019, .NET Core-3.1, LINQ, GIT		

Project Name	MBAC	Team Size	5
Client Name	Mercer Inc.	Company	L&T Infotech.
Start Date	December-2020	End Date	November 2021
Role & Contribution	• Web API Development • UI Development • Creation of database objects like procedures, functions, types, sequences, triggers required for the application • Bug fixing, for the functionalities implemented		
Project Description	The goal of the MBAC is to implement administration platform for Mercer admin clients.		
Technology & Tools	JavaScript, HTML, Vue.js, .net MVC, C#7.0 VS 2017, LINQ, Entity framework 6.1, TFS, Jira, SQL-Server		

Project Name	S&P Global-Market Intelligence	Team Size	10

Start Date	July-2019	End Date	Nov 2020
Role & Contribution	• Web API Development • UI Development • Creation of database objects like procedures, functions, types, sequences, triggers required for the application • Bug fixing, for the functionalities implemented		
Project Description	Create a web platform which Stream real time data updates alongside news and Market Intelligence fundamentals. Customer can choose from a multitude of widgets and templates to create his custom dashboard and Reports. Customers can save, download, and schedule multiple reports and templates. Multiple Reports can be scheduled on daily, monthly, and yearly basis by Customer		
Technology & Tools	Kendo UI, Type script, NodeJS, JavaScript, HTML C#7.0, webapi, Angular 6, VS 2017, LINQ, Entity framework 6.1, TFS, GIT, AWS, Durandal, SQL-Server		

Project Name	Wrapper-Travelers Personal Insurance	Team Size	10
Client	Travelers	Company	L&T Infotech.
Start Date	October 2018	End Date	May 2019
Project Description	Traveler's expertise and focus on innovation have made them a leader in personal, business and specialty insurance and the only property casualty company in the Dow Jones Industrial Average. Every day, their approximately 30,000 employees and 13,500 Independent agents and brokers in the United States, Canada, the United Kingdom, Ireland, Brazil help provide peace of mind to their customers. Customers can quote auto, home and additional (Boat yacht etc.) policies with travelers.		
Role & Contribution	• Senior Software Engineer & My Contribution as a member in team is to provide support to software products in the areas • Provide end to end support so that the business is not affected in case of any mishap. • It includes root cause Analysis, provide fix for the defects. • Quality, Functionality & technically assisted a team		
Technology & Tools	ASP.NET, C#, Entity framework 4.0, VS 2013, SVN		

Project Name	**IOT Integration**	Team Size	10
Client	**3M Connect**	Company	Cognizant
Start Date	October 2017	End Date	August 2018
Project Description	Create IOT based web platform for client so that all users, devices, software can manage from this portal.		
Role & Contribution	• Web API Development • Creation of database queries in Azure Cosmos DB • Write Unit testcase using Mock		
Technology & Tools	Web API, Angular 6, C#7.0, Azure Cosmos DB, VS 2017, LINQ, Entity framework 6.1TFS, GIT, Azure Logic App, Azure IOT tools, Azure Cosmos DB Graph API		

Project Name	**Airbase**	Team Size	8
Company	Prakash Software Ltd.		
Start Date	August 2016	End Date	August 2017
Project Description	Developer The objective is to create Airbase System to automate daily routine functionality of members like to issue driver ticket, to open service request and change status of request in System. Airbase is developed as web-based application, which allows users to access the Airbase on any device24/7.		
Role & Contribution	• Designed, developed web-based application written in MVC 5 • Creation of database objects like procedures, functions, types, sequences, triggers required for the application • Bug fixing, for the functionalities implemented • Have used HTML controls, LINQ, Entity Framework, Auto-mapper • Have used Fluent Validation to do server-side validations and client-side validations based on the user's browser.		
Technology & Tools	MVC 5, C#, SQL Server 2008, VS 2015, LINQ, Entity framework6.0, TFS		

Project Name	Health Pass	Team Size	10
Comapny	Indianic Infotech Ltd		
Start Date	May 2015	End Date	July 2016
Project Description	The goal of the Health Pass business is to create a valuable and engaging platform for organizations to promote positive health through providing their staff with Health Pass points packages that can be used to purchase participation in wellbeing activities.		
Role & Contribution	• Designed, developed web-based application written in MVC 5 • Understand client's business requirement, discussion with onsite coordinator and client • Creation of database objects like procedures, functions, types, sequences, triggers required for the application • Bug fixing, for the functionalities implemented • Have used HTML controls, LINQ, Entity Framework, Auto-mapper • Have used Fluent Validation to do server-side validations and client-side validations based on the user's browser.		
Technology & Tools	MVC 5, C#, SQL Server 2008/2012, VS 2015, LINQ, Entity framework 6.0, SVN, Redmine		

Project Name	Signage Control System	Team Size	4
Company	Indianic Infotech Ltd.		
Start Date	December 2014	End Date	May 2015
Project Description	Developer The objective is to create a Signage Control Program (SCP)that allows the Client to view real time signage data Thus, eliminating any delayed reporting. The SCP would be developed as a web-based application, which allows users to access the SCP on any device 24/7		
Role & Contribution	• Designed, developed web-based application written in MVC 5 • Understand client's business requirement, discussion with onsite coordinator and client • Creation of database objects like procedures, functions, types, sequences, triggers required for the application • Bug fixing, for the functionalities implemented • Have used HTML controls, LINQ, Entity Framework, Auto-mapper • Have used Fluent Validation to do server-side validations and client-side validations based on the user's browser.		
Technology & Tools	MVC 5, C#, SQL Server 2008, VS 2015, LINQ, Entity framework6.0, SVN, Redmine		

Project Name	Tresell	Team Size	10
Company	Silicon Valley Infomedia Pvt Ltd		
Start Date	January 2014	End Date	March 2014
Project Description	The goal of the Health Pass business is to create a valuable and engaging platform for Organizations to promote positive health through providing their staff with Health Pass points packages that can be used to purchase participation in wellbeing activities. .		
Role & Contribution	Acted as an Active Member in the Analysis & Development of the Project.		
Technology & Tools	WCF VS 2013, WCF, ADO.NET Entity Framework 5, SQL Server2012, Cloud Application, Windows Azure Server		

Project Name	Seat	Team Size	10
Client	Silicon Valley Infomedia Pvt Ltd		
Start Date	October 2013	End Date	January 2014

Project Description	To manage the IOS app functionalities like Reservation of table in Restaurant. Scheduling Lunch Dinner Breakfast time of Restaurant Daily Requirement and also able to configure it Special Schedule like X'ams Schedule, Diwali Schedule.
Role & Contribution	Acted as an Active Member in the Analysis & Development of the Project.
Technology & Tools	ASP.NET, C#, SQL, Server 2008, Entity framework 4.0, VS 2010, stored procedure

Project Name	Poker	Team Size	4
Start Date	October 2013	End Date	January 2014
Company	Silicon Valley Infomedia Pvt Ltd		
Project Description	To manage the IOS app and Android app functionalities like login, create account, edit account, forgot password friend request, send chips, declare winner, determine winner , distribute cards, raise caliche functionality, Push Notifications etc.		
Role & Contribution	Acted as an Active Member in the Analysis & Development of the Project.		
Technology & Tools	VS 2013, ADO.NET Entity Framework 4.1, SQLServer2008, Pub Nub API, Windows server 2012		

Project Name	Payroll System	Team Size	10
Company	Dgtal World LLC		

Start Date	October 2013	**End Date**	September 2014
Project Description	Payroll refers to the process by which employees receive their salary. Functions involve balancing and reconciling payroll data and depositing and reporting taxes. The payroll department takes care of wage deductions, record keeping and verifying the reliability of pay data.		
Role & Contribution	Acted as an Active Member in the Analysis & Development of the Project.		
Technology & Tools	C#.Net, SQL, Server 2008, Entity framework 4.0, VS 2010, Telerik controls
