I am very much passionate about programming and my valuable inputs have always helped my senior colleague to solve complex challenges. I have a track record of continuously improving the way software works.
Total I have **4.5 year** of experience as a backend developer and till now I have worked on more than 12 projects.
In my current role I am working as senior software engineer in **eClerx**.

Education

- B.tech (CSE)   2015 to 2019   76 %
- 12th   2013 to 2015   72 %
- 10th   2011 to 2013   80 %

Technical Skills

- Data Structure & algorithm .
- System Design (HLD).
- Object Oriented Design (LLD).
- Node.js
    Frame work : Express.js, Hapi.js, Koa.js
- Message Queue
    Kafka , Rabbit MQ, Aws sqs
- Web socket
- Redis
- Data base
            Mongodb , MYSQL (basic)
- Architecture : Microservices , Monolithic
- Docker
- Aws
    EC2 , S3 , Lambda function , IAM
- GraphQl (beginner)
- React.js (beginner)
- Typescript
- Programing language
    JavaScript , Java / J2EE / c / c++
- Others
    Git , TFS , Agile , HTML , CSS , firebase , SNS

Achievements.

- 17th Rank in **SMART INDIA HACKATHON 2018**
    Held by MHRD Govt of Ministry at GNIT , Kolkata

Interest & Hobbies

- Reading Books
- Listening music ,
- Playing game,
- Travelling

Additional Info

- Strengths :
    - Ability to cope and work with people in groups.
    - Good planner.

- Languages : English , Hindi.

- Dob: 5 JAN 1997

- Gender : Male

- Marrital Status : Unmarried

Experience

Eclerx Service Technology | JAN 2022 to till now.

Product : Market360 (E-Commerce Analytics Software **).**

- I worked on **Market360 product** for various clients. AMD / Whirlpool / Lenovo / Hp / Samsung /
- Daily Handling Million of records.
- I have worked on Data Import and data pre-cache logic based on data set.
- Provides Trend/Graph data from backend
- Worked on various module
    - Product Availability.
    - Content compliance.
    - Sentiment analysis.
    - Price change.

Technology description: Node.js , Mongodb , Redis , Microservices, postgreSql

Srijan Technologies | April 2021 to Dec 2021.

- **Health Group**

Worked on list of features :
    - User, Organization and subscription Management.
    - Chat service : Private, Group , Broadcast
    - Online/offline status
    - Message Type : Priority , Acknowledge , star
    - Video Calling : Using vidyo.io library
    - Authentication management using cache
    - Push notification using firebase.

Technology description:
    Hapi.js , Socket.io, redis , Rabbit MQ , Mongodb , docker, Aws cognito service, Lambda function , push notification

Appinventiv Technologies | JAN 2019 to April 2021.

- **Taxi Application**

Worked on list of features :
    - Driver Search Service & ETA calculation.
    - Ride booking based on location.
    - Web socket for event based communication.
    - Coupon Code , Refferal , Fare Estimation .
    - Payment management.

Technology description : Microservice , Express.js , Socket.io, redis , Kafka , Mongodb,Twilio.

- **Paradise biryani App**

Worked on list of features :
    - Integrated order pickup & Delivery services . Grab, Dunzo and Shadow fax.
    - Analytic Dashboard.
    - Order Dashboard .
    - Payment Gateway.
    - User Authentication / User signup / login.

Technology Description **:** Socket.io , redis , rabbitMq mongodb , Grab , Dungo ,
