📍 Bangalore, India

SUMMARY

I have been working with web development since 2018, the period during which I have worked in different environments, from start-up. I am a self-motivated and self-taught professional who likes to solve problems.
I merge a passion for usability and user experience with technical knowledge to create cool digital experiences. My repertoire includes programming languages and tools such as Angular, ReactJS, MySQL, PostgreSQL, Apache server configuration, SASS, LESS, Twitter Bootstrap, jQuery, Javascript and more.

EXPERIENCE

Full Stack Developer

Idea Elan

📅 11/2019 - Ongoing 📍 Hyderabad

As the first developer to integrate the team in this greenfield project, my goal is to create interfaces for our new product utilizing ReactJS/Angular + Sass, using Redux as our state management system. The main focus is to create reusable components that could be used in future projects by the team.

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality
- Used JIRA/Azure for bug tracking. Git is used as a version control tool and Azure pipeline is used for continuous integration of builds.
- Experience in reactive forms and validations on client side.
- Creating REST API services through .NET Microservice architecture with SQL as database.
- Using caching, minimizing table, creating contracts for development.

Ionic Developer

Idea Elan

📅 10/2018 - 11/2019 📍 Hyderabad

As an Ionic devloper, the company requirement was to create an Hybrid Mobile application so that It can be used for multi platform devices.

- Develop mobile applications based on Ionic , Angular and SCSS.
- Worked on Social API integration, Core location APIs, Payment gateway
   integration, Google Maps, Geo-Location, Map Web Views, Push Notification Service
- Published 2 or more apps in Google Play Store and Apple iStore.
- Keep the code and the features implemented by the other developers in accordance to the requirements

SKILLS

Front End

Angular   JavaScript   SASS

LESS   jQuery   Bootstrap

ReactJS   Ionic   ES6   HTML5

React Native   .Net MVC

Back End

NodeJS   ExpressJs   MySQL

MongoDB   SQL

Tools

Git   Gulp   Apache   SQL   SVN

Azure   Google APIs   Sharepoint

npm   Jira   Confluence

App Deployments   Rest APIs

WHAT I'M PROUD OF

🗡 **My courage**
to always leave my comfort zone. I'm not afraid to do whatever I need to do to achieve my goals!

🎯 **My Focus & Persistence**
Despite any hard situation, I keep my focus on my goals and always move towards them.

🧩 **My Flexibility & Adaptability**
