

# Gurpreet Singh Juneja

## Senior Frontend Developer

📞 8770812091 @ gurpreetsj8871@gmail.com

### EXPERIENCE

Frontend Developer for Kloudfuse 01/2023 - Present

[Indexnine Technologies Pvt. Ltd](#)

Pune, India

- Developed end-to-end CI/CD and Kubernetes screens independently using **React JS**.
- Designed and developed a user interface feature that displays YAML data in a tree format for Kubernetes, improving visibility and usability of the data.
- Integrated **Redux** for streamlined state management, enhancing performance and user experience.
- Conducted code refactoring and addressed **Sonar** issues to enhance code quality and maintainability.
- Contributed to the development of **Micro Frontend** architecture, ensuring modularity and scalability in the project's frontend components.

Frontend Developer for Ozone Finance Manager 09/2022 - 01/2023

[Indexnine Technologies Pvt. Ltd](#)

Pune, India

- Built and maintained a secure and accessible banking app UI from scratch using **React, HTML, CSS**, and accessibility tools.
- Took complete ownership of **User Authentication** and **Session Management**.
- Implemented **deep linking** for opening specific screens in **React Native** upon clicking notifications.
- Developed and maintained **API integration** with backend systems, ensuring data consistency and security.
- Collaborated with backend developers to ensure cookie consistency and compatibility with backend systems, such as session management and user authorization.

Frontend Developer for Dwellin 11/2021 - 08/2022

[Indexnine Technologies Pvt. Ltd](#)

Pune, India

- Created a cross-platform mobile application using reusable components, screens, and features, while maintaining **TDD practices** with TypeScript from scratch.
- Integrated **Storybook** for developing React Native components in an atomic design pattern.
- Incorporated deep linking features using **Appsflyer** to navigate to a specific screen and gain insights into user behavior.
- Developed an **ErrorBoundary** container to catch real-time errors in production and fetch error details via email.
- Utilized social networking and analytics APIs such as **Facebook** and **Google Analytics**.
- Performed beta testing with TestFlight and Android Beta Channel releases, and published the app to the Play Store and App Store after every deployment.

Frontend Developer for BASF 01/2020 - 11/2021

[Infosys Ltd](#)

Pune, India

- Developed User Interface by using **React JS, Hooks** and **Redux**.
- Created a React Application for BASF, a data entry platform using **Formik** for validation and submission.
- Utilized React to build reusable components with **JSX** including navbar, forms, tables and buttons to optimize rendering and performance.
- Used **React Router** to turn application into Single Page Application.
- Used **CSS, HTML** and **Material UI** react form in Web design and development for the UI interface design.
- **Flexbox** and **Grid** used for layout of elements.
- Extensively used **Git** for version controlling and regularly pushed the code too Github.

Automation Developer for Northern Trust Bank 09/2019 - 01/2020

[Infosys Ltd](#)

Pune, India

- Automation code for **comparing/rendering** data and **Consolidation** of excel sheets and text files.
- **Web Scraping** of required data into excel and text files from web pages.
- Created a **Automated Scheduler** for shifting old files into a backup folder using Scheduler.
- Keep test applications up and running, resolve issues when an application is down.
- Modules Used : Pandas, Xlrd, Datetime, CSV, urllib.request, BeautifulSoup, OS, glob, openpyxl, styleframe, TextBlob

### EDUCATION

**B.Tech in Computer Science and Engineering**

ITM UNIVERSITY, GWALIOR

07/2015 - 06/2019

### SKILLS

React JS · React Native · Redux ·

javascript · Typescript · Python · Hooks ·

Material UI · Tailwind CSS · HTML5 ·

CSS3 · React Router · Formik · Sonar ·

Flexbox · Grid · Git · Tool / Technology

### PERSONAL PROJECTS

#### •RealTimeTalks

A real-time chat application made using React Native, Redux and Socket.io. Multiple people can use the same room ID to join a group chat. The maximum people active simultaneously on the servers has been 100.

#### •InstaGrowth

I developed an innovative and interactive platform that leverages the power of Instagram's API to enable users to automate their Instagram marketing strategies. I have used Instagram API's, React Native, and Python automation code.

### ACHIEVEMENTS

•Achieved first position in the TechShort competition at Indexnine.

•Placed in top 10% in Week of Code 36 Contest organized by HackerEarth.

### TRAINING / COURSES

•Data Structures and Algorithms

•Object Oriented Programming

•Software Engineering

•Automation
